White Bass	38 cm (15 in)	46 cm (18 in)
Whitefish	56 cm (22 in)	66 cm (26 in)

Each year, many exceptional trophy fish are caught in Manitoba waters. For this reason a "DESIGNATED PICTURE LENGTH CATEGORY" was established. Anglers whose fish are equal to or exceed the length in this category (shaded column) must submit a picture with a measuring device or some object of standard size in addition to the witnesses (refer to Manitoba Master Angler Award rules #3 and #4).

MANITOBA MASTER ANGLER AWARD RULES

- Fish must be caught in Manitoba by angling for recreation in accordance with Provincial Angling Regulations.
- Anglers must measure the length of a fish to qualify for a Manitoba Master Angler Award as illustrated.
- Two witnesses, or one witness and a picture are required. All pictures will become the property of Travel Manitoba.
- Any entry for a fish equal to or exceeding the designated picture length for the species must be accompanied by a photo of the fish.
- Qualifying fish must be submitted on an official entry form or copy of (one fish per entry form). No changes in the length stated on the application form will be accepted.

- Once an angler has become a specialist (having caught and entered five fish in a given species), the angler may enter only those fish that exceed his or her smallest fish for that species to a maximum of three per year.
- Travel Manitoba will be the sole and final judge as to the acceptance of the entries, and reserves the right to request additional information and requirements as may be deemed necessary in the best interest of the program.
- Although awards are issued continuously, the Master Angler Awards annual deadline for publishing purposes is September 30.
- Only one bronze, silver, or gold badge and release crest will be awarded to any one angler, but certificates will be presented for all qualifying fish. Different specialist badges will be awarded for each species.
